

EPA & THE CEMENT INDUSTRY: How NESHAP* Will Change Your Business

*NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

NESHAP and California AB 32 are the most significant regulations to affect our industry in a generation. Learn how they will drive up prices for materials and force production out of California and the U.S.

Speaker: Steve Arment

Steve is a Senior Internal Consultant, Technical Resources with TXI, serving their West Coast market and the Oro Grande production facility. He is a member of the PCA Technical Committee, the Environment and Energy, and the Energy Sub-Committee.

SPECIAL FEATURE: Our Riverside Cement plant features two Haver 8-spout rotary packers. Each machine has a production capacity of 38 bags per minute and bag fill time of only 1.5 seconds. Join us before lunch on a tour of this facility to see the packers in action!
